

Revolutionizing Police Work for the 21st century

DHQ's Digital Roll Call

Still using a paper-based system for Roll Call?

Go DIGITAL with DHQ 5.0

- Present, distribute and recall Roll Call information ONLINE – with easy access via any phone, laptop, or tablet.
- Allows posts to include any digital file as an attachment.
- Paired with an optional video projector or large screen display standing.
- Each Roll Call item becomes a dynamic two-way communication tool right in the cruisers.

Benefits:

- One screen view – ease of seeing everything in one place
- Attach High resolution images, video clips and documents, crime reports, prison releases, BOLO's, surveillance videos, etc.
- Allows All Roll Call to be Searchable by Keyword
- Secure comments feature - Roll call for every shift becomes completely interactive and dynamic.
- Roll Call Items automatically expire on a time limit you set
- All permission levels can be set by your local DHQ Administrator

DHQ 5.0: Digital Roll Call

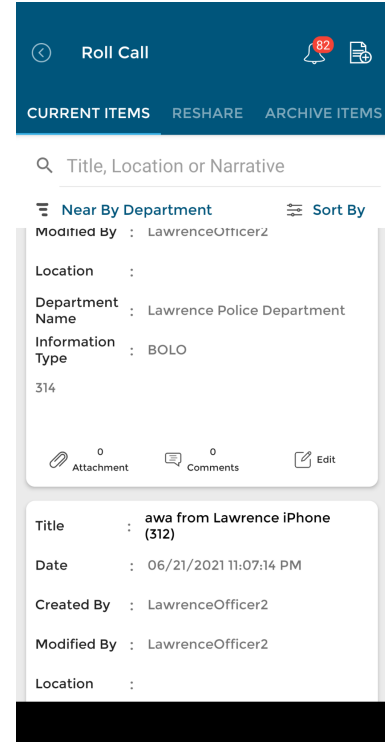

By Delphi Technology Solutions

Extends easily to all mobile devices providing quick, detailed information to all officers. Roll Call posts can now include any digital file and be updated on the fly.

DHQ 5.0 turns Roll Call into a dynamic two-way communication, available via any internet connected device.

An officer posts a text roll call item and can attach a picture, video, prison release PDF, a wanted poster, crime bulletin, or any other document or file. With the Secure Comment feature, an officer can securely provide additional information to a roll call item in the app.

- ★ Makes standing roll call faster, easier and more informative.
- ★ Pair with a digital display in the PD's roll call room to project all information when the shift command officer is speaking.
- ★ When officers leave Standing Roll Call, they take it with them.

DHQ's Digital Roll Call can be securely accessed from any electronic device with internet access, including cruiser laptops, tablets, and smartphones.
