

Revolutionizing Police Work for the 21st century

DHQ's SafeWatch

This unique and powerful tool helps keep at-risk residents safe.

Helps protect individuals with conditions that can cause them to wander, be unsafe, or pose a danger either to themselves or to others.

How it Works:

- Police proactively register at-risk elderly, autistic, or runaway individuals within the SafeWatch app
- All critical information is securely stored electronically: photo, name, characteristics, behavioral/speech patterns
- Prepares police departments to immediately launch an informed search if needed

Benefits:

- ★ Saves critical time: Officers simply "Click" to export info to Roll Call/AWA
- ★ Instantly sends out a notification to police agencies
- ★ Quickly creates a missing persons poster
