

Revolutionizing Police Work for the 21st century

DHQ's Area Wide Alert – “My Dash”

All AWA information is auto-synchronized and updated in real time via the DHQ application – versus delays in “old fashioned” communication (via email, radio, fax, paper-based roll call)

- Ability to live capture video within the app, attach it, and export it via the DHQ app to create an alert
- Color Coded for Viewing: Blue = Area Alert / White = Local
- Comments can be added/updated from different agencies
- Sort data by department name, title, data modified, information type
- **Allows ease of collaboration within and between local agencies**
- Choose departments to share information with

Roll Call AWA Image Montage/Slider

- ★ Scroll through all uploaded Roll Calls and AWA images
- ★ Quickly identify a suspect and easily access the narrative and images
 - ★ Click the roll call link to quickly export to AWA
